The Campus

Historical Centre

Bayreuth Festspielhaus

It's the biggest city of Upper Franconia, idyllic in between the Spruce Mountains and the Franconian Switzerland. The former margrave residence is famous for its cultural international renown because of the Richard-Wagner-festival; economically it's the center of upcoming High-Tech in the region. The university was found in 1975 as the youngest universty of Germany. A number of 13.000 students in over 100 programs of study are enroled. The fields of research are continuosly enlarged; a prominent example is the cooperation with the well-respected Fraunhofer-Institut.

Bayreuth established itself within Top-ranking of universities through its diversity and quality of degree programmes.

The popularity of the city is well-known within students: at the moment over 1.500 aprtments for students are miising on the market.
